

Open letter from Iranian Political Prisoners' Alliance to The president of United States of America, President Trump:

Mr. President,

To introduce ourselves, The Iranian Political Prisoner's Alliance consists of political prisoners who have spent part of their lives and youth in prison under enormous and all kinds of tortures by Iranian regime for the sake of freedom in Iran and raised up to the tyrant religious fascist regime.

Our alliance which extends in several countries from Canada and The United States to Europe has been registered as an official democratic establishment.

Mr. President,

We are here to testify and inform you that we have been under an unfair and huge mistreatment by the government funded Persian broadcasting under the United States Department!

Your Honor,

Just recently, the former head of Iran's Intelligence Services, Ali Fallahian, announced in an televised interview clearly and openly that "we are exporting our agents under

pretext of university scholars, merchants and, journalists and reporters to the western countries, Europe and America!"

We must bring to your attention sir, Voice of America Persian, which is funded and operated by Department of States, paid by the United States citizen's tax money, who amazingly is aware of these Iranian agents and offsprings and their locations, constantly invites them as guest either inside studio or by teleconferencing them, to direct and steer the audiences' state of the mind leaning toward the Iranian regime propagandas! In addition these particular anchors working officially and paid by the United States Government proudly and openly participate in Iranian regime elections and even advertise to have their Iranian audiences to follow! As an old Persian slang says: they eat American bread but Stir the Iranian regime pots! That means they get paid by the United States but work toward the Iranian regime's policies!

Mr. President, the situation. Radio Farda which is broadcasted from Prague is even more pathetic! It seems like Iranian regime has a direct line from Tehran to Prague for placing its own agents in this station! Most of the news broadcasted in Radio Farda pretty much has the same tune as Iranian State news media! In Radio Farda's website, the Iranian foreign Minister's statements are so much delicately depicted with so much details as if this news is posted by Iran's Foreign State Department! However, there are no coverages about Iranian Communities protests to Zarif's presence in America's prominent organizations as it discredits your policies towards Iran. Now, the latest high light of this news media is a program called "Ayar Opposisoin" ("Imposter Opposition") which invited Alireza Namvar Haghghi who was the Iranian regime's top advisor to the Minister of Guidance! Alireza Namwar Haghghi was "exiled" to abroad under fictitious sentence without any mention of his crime! He is one of the ruthless lobbyists of Iranian regime and the enemy of all freedom loving people! He has special seat in "Voice of America" and "Radio Farda" And he is continually being broadcasted on both of these stations!

Mr. President Trump, this unfair treatment under former President Obama's term with his appeasing policy toward Iran was clearly inevitable since Mr. Obama had his goal set for achieving a legacy by signing the Joint Comprehensive Plan of Action (JCPOA) with Iran. Mr. Obama has completely violated all the principles, ignored the human rights' violations in Iran and the principles of a president under the pretext of obtaining an agreement with the Iranian regime. But unfortunately, it is believed that under your term, these medias also have a special immunity that continues on the same line without any changes. Unfortunately, your secretary of state, Mr. Tillerson, is looking at all these developments with a modest stance, and the two media keep confidently the same path that Mr Obama and John Kerry have drawn.

Mr. President

In our humble opinion, it is time for you to conduct a purification of the elements of Iranian regime in these two state broadcastings. We believe at the time of your

administration, the influential elements of the Iranian regime which currently are in charge of the Persian news agencies, must be identified and fired. We also hope that under your administration with your firm policy against state sponsor of terrorism, the Iranian regime's hardliners like Alireza Namvar Haghighi, Akbar Ganji, Ibrahim Nabavi, Mohsen Sazegara, Fatemeh Haghighat-Joo, the infamous crook and lying mullah like Mohsen Kadivar, Hooshang Amir-Ahmadi, Tita Parsi and Hossein Mousavian, who serve the Iranian regime, must not be allowed to legitimize and defend the Iranian regime's actions with tax payer funds! Further more, we are requesting for a detailed screening process for those offered a job, and while are holding poisons at VOA Persian and Radio Farda.

Under such policies, both VOA-Persian and Radio Farda will be refined from Iranian regime agents and appeasers.

In February of the same year, your deputy, Mr. Mike Pence, addressed the officials of the Iranian regime, and stated that is better for Iran to look at the calendar and notice the new person who's is holding position as the President of the United States!

Now, the question remains today, whether the employees and program makers of "Radio Farda" and "Voice of America" realize the difference between the new Administration and previous one?

Our Alliance thanks you in advance for your firm stance on this issue due to the fact that democracy and freedom is extremely important for Iranians!
